

It's O.K. to Play™

KEYNOTE

The message is universal. The principles are timeless.

PLAY

Play with how you work. Play with how you live. The results are astounding.

Play – for many a lost ability – is one of our greatest allies. By becoming masterful in the art of play, you will possess skills that are widely transferable from managing your time to managing your staff.

In this keynote you will uncover:

- The source of your innate genius
- How to incorporate the 'technology' of play into your life and work
- How to unleash your fullest potential

Keynote attendees will leave uplifted and inspired by what is possible using the power of play.

More than Snore

Our keynotes are carefully choreographed to maximize impact while creating an impression that lasts. More than a 'talking head' we send a message supported by a tapestry of stories, real world examples and multimedia effects designed to appeal to all of our senses.

Peppered with Participation

Each keynote has audience participation built right in, maximizing involvement and understanding. Ranging from 60 - 90 minutes, this participation keeps attendees engaged and interested.

A Change in Perspective

Real change happens when we see ourselves, someone else or a particular situation in a different way. In our keynote addresses, we are shooting for a fundamental change in perspective - a subtle shift that has a ginormous impact.
