### **More than Snore**

Our keynotes are carefully choreographed to maximize impact while creating an impression that lasts. More than a ‘talking head’ we send a message supported by a tapestry of stories, real world examples and multimedia effects designed to appeal to all of our senses.

### **Peppered with Participation**

Each keynote has audience participation built right in, maximizing involvement and understanding. Ranging from 60 - 90 minutes, this participation keeps attendees engaged and interested.

### **A Change in Perspective**

Real change happens when we see ourselves, someone else or a particular situation in a different way. In our keynote addresses, we are shooting for a fundamental change in perspective - a subtle shift that has a ginormous impact.
